3 Ethics hours

Examine insurance statutes and regulations that apply to an agent's legal and ethical responsibility to an insured, claimant, insurer, and other agents. Farm Property Coverages

Instructor: Keith Wilts, CPCU, CIC

April 23

8 AM - 11 AM

Course #102118

3 hours

Writing farm insurance poses many challenges; this is due to the wide range of activities in which farmers engage, farm diversification into non-farm business activities, the need to also insure the farm-related personal residential exposures, increased reliance on technology in farming, and changes in farm ownership (trust, corporation, LLC, etc.). Participants will examine property loss exposures faced by clients who are farmers, those who own farm property but do not engage in farming, and those who have an insurance interest in farm property, such as a trustee or beneficiary in a farm trust. Discover coverage provided in various Farm Property Coverage forms and significant property endorsements available to tailor coverage. Particular attention will be given to forms, endorsements, policy provisions, and causes of loss (perils) that are unique to farm coverages.

Webinar Course Descriptions

Topic: **Farm Vehicle and Equipment Coverages** **Date:** **March 21** **Time (Central):** **8 AM - 11 AM** **CE Credits:** **Course #102730**
Instructor: **Keith Wilts, CPCU, CIC** **3 hours**

Fleet diversity, cutting-edge technology, and unique property and liability hazards pose many insurance challenges. Each state has exemptions to auto laws or regulations that represent a collection of safe harbors, or defenses, from potential liability that would otherwise apply, such as when farm vehicles and farm machinery are being operated on public roads. A Farm Liability policy typically only provides coverage for defense and damages arising out of the use of farm vehicles and farm equipment while being used for "farming." Evaluate the Personal Auto, Business Auto, Farm Liability, and Mobile Equipment Coverage forms to identify when a client needs to modify coverage.

Fiduciary Liability, ERISA Bonding, and Employee Benefits Liability **Course #TBD**
Instructor: **Richard Clarke, CPCU, CIC** **February 21** **12 PM - 3 PM** **3 hours**

Identify significant exposures and coverage differences between Fiduciary Liability, ERISA Bonding, and Employee Benefits Liability. Examine when Commercial General Liability (CGL) insurance or Commercial Property Coverage applies and when the client needs (first party) employee dishonesty insurance. Analyze problems that can result from overlapping coverage through different insurers. Review significant responsibilities that exist under the Affordable Care Act (ACA) for benefit plan decision makers. Discover what to look for in Fiduciary Liability insurance, and determine whether a client needs the EBL endorsement on their CGL.

Homeowners Hot Topics ... What You Need to Know **Course #103090**

Examine numerous property and liability coverage issues and possible insurance and noninsurance solutions that an insured and his or her agent could consider. Discuss factors that should be considered to determine if an activity is a business. Evaluate the coverage for borrowed, leased and other non-owned property. Discover the extent of insurance for property at another home for a college student, life partnership, or in an assisted living facility.

Income After Retirement - Where Does the Money Come From? **Course #101646**
Instructor: **Ross Pearce, CLU, ChFC, CIC** **March 13** **8 AM - 11 AM** **3 hours**

People in the United States are living longer today than ever before. They want to enjoy life, travel, hobbies, and their families not only during their working careers, but also once they've stopped working. Their retirement money needs to be sufficient to allow them to pursue these activities, as well as face the health consequences of getting older. The amount of money needed to address these issues needs to last much longer than it did in previous years. That requires careful advance preparation. In this course, we will discuss that preparation, and investigate the history and future of retirement planning.

Insuring Hobby and Small Farms **Course #102727**
Instructor: **Keith Wilts, CPCU, CIC** **April 29** **12 PM - 3 PM** **3 hours**

The key distinguisher for hobby farming is that it is a not-for-profit motive, even though a profit may be realized. Hobby farming is pursued primarily for pleasure or recreation. Loss exposures, including farm equipment, farm buildings, animals or livestock, farm workers, and operation of a road-side stand or participation in farmer's markets clearly create the need for farm owner policies vs relying on homeowner's insurance. Farm owner's Property and Liability coverages will be discussed and applied to real life case or claims examples. Automobile coverage will also be reviewed to address the related farm vehicle and off premises exposures.

Insuring Toys and Collectibles **Course #102117**
Instructor: **Keith Wilts, CPCU, CIC** **February 11** **12 PM - 3 PM** **3 hours**

Unless you collect the same item or have an interest in the same hobby as an insured, you may be asked to insure items about which you have little first-hand knowledge. Every homeowners policy has limitations that apply to certain classes of personal property and liability arising out of activities in which an insured may be involved. Examine the difference in valuation methods based on Actual Cash Value, Replacement Cost, and Agreed Value. Evaluate significant differences in the level of protection for owned versus non-owned motorized "toys" under a homeowners policy. Examine how a personal umbrella policy can help fill in the potential coverage gaps.

Webinar Course Descriptions

Topic: **Insuring Trusts - Protecting Your Client's Wishes** **Date:** **February 19** **Time (Central):** **8 AM - 11 AM** **CE Credits:** **Course #102111**
Instructor: **Paul Burkett, J.D., CPCU, CIC** **3 hours**

The use of trusts is becoming the standard practice for individuals and households who hold any appreciable asset. The principal attraction of trusts is that they allow property to be passed down to heirs or transferred to others more quickly and at less cost than a will. Under a trust agreement, assets can pass immediately from the grantor (or donor or settlor) to the beneficiaries without having to go through the cost and public disclosure of probate. This course is designed to provide participants with an understanding of the insurance implications that exist for clients who have established a trust. The course includes a comprehensive review of trust terminology, types of trusts, parties involved, and resultant property and liability loss exposures. Commercial and personal lines coverage options will also be examined, along with real life case examples regarding how each can be used to address particular liability and property needs.

It's Not My Fault, or Is It? - Liability Issues in Personal Lines Policies **Course #103145**
Instructor: **Ross Pearce, CLU, ChFC, CIC** **March 20** **12 PM - 3 PM** **3 hours**

Examine activities that can cause an insured to be legally liable, and the process used to determine if the Homeowners or Personal Auto policies provide coverage. Explore PAP dilemmas, including business use, rental cars, uninsured motorist, vehicles furnished and available for regular usage, the meaning of occupying a vehicle, and who can properly grant permission to use an auto. Analyze homeowner situations, including businesses in the home, damage from an intended act, and loss assessment.

Instructor: **Ross Pearce, CLU, ChFC, CIC** **April 11** **12 PM - 3 PM** **3 hours**

Instructor: **Richard Clarke, CPCU, CIC** **March 26** **12 PM - 3 PM** **3 hours**
